SRI C. M. ARUMUGHAM.—Since this happens to be a very important issue, I would requett the Hon. Speaker kindly to allot a day for discussion.

SRI K. H. PATIL.—I agree with the suggestion of the Hon member Sri C. M. Armugam. He can table a motion as per the rules of procedure.

SRI C. M. ARUMUGHAM.—We have raised the issue of West Coast Paper Mills all these years. Whatever he has done is very little, he should have done more. By more revising the rate of bamboo, the hon. Minisiter does not deserve any compliment. We must therefore discuss this issue threadbare.

SRI K. H. PATIL.—I welcome the suggestion of the Hon. Member.

SRI C. M. ARUMUGHAM.—I want the hon. Speaker to agree to this proposition.

Madam SPEAKER.—If the Hon. Member brings a motion in a proper form, then I shall think of taking action. Merely demanding for a discussion without proper notice, does not serve any purpose.

SRI C. M. ARUMUGHAM.—I shall give a notice in a proper form for this purpose.

STATEMEMT OF SRI B P. KADAM DEPUTY SPEAKER

re : His speech at Karwar in correctly repo·ted by the press

SRI B. P. KADAM (Karwar) [Deputy Speaker].— Madam Speaker my attention has been drawn to a news item appearing in to-day's newspapers. I desire to clarify the matter.

You would please remember that on the 23rd evening with your kind permission I had left th s place for Karwar. I had also told you that under local pressure I have to attend to a social gathering of a High School at Majali in Karwar Taluka in my Constituency. I presided over that function and Smt. Shashikala Kakodkar, the Minister f r Education, Government of Goa, was the Chief guest I may add that Smt. Shashikala Kakodkar is the daughter of Sri Bandodkar t'e Chief Minister of Gao. Smt. Kakodkar in her speech expressed her deep thanks to the peopl· of Karwar Taluk for having helped the liberation of Goa. She added that during Goa's freedom movement she had to come to this area by foot-paths and jungle routes and she rested in the border villages for a day before resuming her forword journey. She thanked the people who had givem her shelter. In her speech she further mentioned that this area, linguistically and culturally is very akin to Goa. She then dwelt upon discipline among students and dilated upon changes in the present educational system so that it would be more job oriented.

In my speech I mentioned that Goa during Mahabharatha and during the middle ages extended far to the North and South of the present Goa. I quoted a verse from a Marathi poet Shobhanand Pikle of Ankola who lived about two centuries back and who stated that Goa in the South extended up to Gokarn. I had mentioned in my speech that Kaka Saheb Kalelkar in his letter to me had mentioned about the cultural, religious and linguistic affinity of this area with that of Goa and the border ar a. Everybody knows about Kaka aheb's opinion. My main idea was to thank the Chief Minister and the Government of Goa for giving employment facilities to the people of my constituency which I had the good luck to represent repeatedly I mentioned this and requested that the same sympathy may be continued without which due to the linguistic difficulties the people of my constituency would have felt completely helpless for want of employment. I had repeatedly stressed this.
